ANGLED
SHELVES
FOR AN
ACCESSIBLE
AND PRECISE
PICK

Pick Smarter. Pick Better. Pick UNEX.

pick//shelves

**Accelerate pick rates.
Improve worker comfort.
Eliminate the dead zone.**

UNEX's easy-to-mount and customizable pick shelves offer a simple and effective tool for improving pick rates. Our pick shelves are angled to provide clear visibility and accessibility at the pick point.

Applications

Use in racks, where adjustable shelves and pick trays provide the most durable, flexible and accessible pick points for workers.

Features

- Drops into existing rack
- Any beam style
- Multiple stop height
- 7-year warranty

Specifications

- Depths from 18" - 60"
- Widths from 30" - 120" (multi-panel)
- Galvanized steel construction
- 50 lbs per square foot shelf capacity

Applications

Use on workstations, such as Flow Cell from UNEX, to give pickers the most precise and efficient pick possible.

Features

- Standalone solutions — available portable or stationary
- Customizable sizes
- See Flow Cell literature for more options (LIT-PROD-002)
- 7-year warranty

Specifications

- Depths from 18" - 60"
- Widths from 18" - 96"
- Galvanized steel construction
- Wire pick shelves are 24" deep
- 3,000 lbs total capacity (Flow Cells pictured)
- 50 lbs per square foot shelf capacity

Pick **Smarter.**
Pick **Better.**
